

# Upskilling, Reskilling and Lifelong Learning

Second Session

Intergovernmental Experience and Policy Perspective

## Highlights

- Globally only 2.9% of the global stimulus is allocated to education and training, in that 36% is allocated to upskilling and reskilling.
- Enabling factors for LLL:
  - Quality assurance and technology-driven standards
  - Funding and partnerships
  - Compliance and integration
  - Interoperability
- Micro-credentials are increasingly gaining popularity, especially since the outbreak of the pandemic.

**Borhene Chakroun**

Director for Policies and Lifelong Learning Systems, UNESCO

- A strong lifelong learning system has insights on needed skills and cross-sectoral pathways and flexible access to learning and recognition of prior learning and experience, and smart use of digital technology.
- Creating learning and career pathways are very important.
- Provide flexible learning solutions that are modular and digital.

**Pedro Moreno da Fonseca**

Lifelong Learning Specialist at ILO
